

PERRACINO

construction & stand expo

By choosing Perracino as your business partner to bring your project to fruition, means that you benefit from years of outstanding experience and exemplary family values.

Since its beginnings, human values and professional expertise have been at the heart of our company's development.

Perracino combines professional dedication in the highest traditions with today's technology.

To enable your project to realize its full potential, it needs to be undertaken by a team that coordinates the total management of the operation. A team that has at its disposal the means to make the right decisions at the right time to guarantee quality, and ensures that deadlines are respected while budgets are kept to.

Perracino provides you with a dedicated project manager who coordinates in-house resources as well as manage trusted specialist partners. Perracino has demonstrated its exceptional capabilities for decades, tackling some very technically challenging engineering projects; and thanks to talented professionals in all areas of construction being an integral part of the organization's infrastructure, no challenge has been too great.

Perracino has built an enviable reputation over many projects, and those opportunities have led Perracino to fulfill building projects of varying scale across very broad business sectors.

All of these experiences have one thing in common, the fact that they required a high level of expertise, or because the technical difficulty required exceptional talent, or because of challenging on-site conditions - a high skill level was the optimum solution.

BUILDING CONSTRUCTION

EXPERIENCE

This is how Perracino's teams, independently or in collaboration with its partners, carry out a whole spectrum of projects; such as – Industrial buildings, retail outlets, furniture fabrication, manufacturing exhibition stands, or events for prestigious brands, constructing and fitting-out luxury residences and occasionally building unusual special projects that require innovative prototypes or one of a kind structures.

Today, the successes of our completed projects for satisfied clients, the incredibly high standards and expertise of our in-house teams coupled with our network of trusted specialist partners makes Perracino an essential resource for your highly demanding projects.
